Das Wichtigste in Kürze

- Die Krypto-Bank Sygnum hat das Gemälde «Fille au béret» von Picasso tokenisiert.
- Dies senke die Hürden für Kunstinvestitionen und öffne den Kunstmarkt.
- Insgesamt werden laut Sygnum 4000 «Picasso-Token» geschaffen.

Insgesamt werden laut der Mitteilung 4000 «Picasso-Token» geschaffen. Diese können über die Sygnum-Handelsplattform Sygnex gekauft und gehandelt werden. Das physische Kunstwerk wird laut den Angaben in einem «hochsicheren Speziallager» aufbewahrt.
